winner

PRODUCT HIGHLIGHTS

THERMOBLOCK SYSTEM

Super-fast heat-up time - 40 seconds from switching on. Fast temperature adjustment from coffee (84°C) to steam (100°C) in just 12 seconds.

15 BAR PUMP

Optimum coffee extraction to produce the perfect crema.

EASY 3-BUTTON OPERATION

Simple operation, select single espresso, double espresso or steam operation.

CAPPUCCINO SYSTEM

Adjustable steam wand which perfectly heats and aerates milk to produce a rich, thick foam.

STAINLESS STEEL GROUP HEAD

Professional grade housing for single or double filters for pre-ground coffee of your choice or filter for environmentally-friendly ESE paper pods

REMOVABLE CUP TRAY

The drip tray is removable for accommodating larger coffee cups and for easy cleaning.
