5 BURNER

Smeg's spacious cooktop offers multiple burners ergonomically positioned to cater to several styles of cooking at any one time. Pots and pans are neatly contained within one safe area instead of occupying otherwise precious bench space.

17 MJ/HR DUAL CONTROL TRIPLE WOK ZONE

Located on the left, this large and versatile burner suits woks, pots, saucepans and griddles. Whether it's used for easy stir-fry meals or controllable low simmers, it adds a whole new repertoire to your cooking.

FLAME FAILURE DEVICE

Safety fitted to all burners, the Flame Failure Device ensures that should a flame be extinguished accidentally, the gas supply to the specific burner is stopped. The burner can only then be reignited by following normal ignition procedure.

CAST IRON TRIVETS

The solid cast-iron trivets cover the cooktop, creating a harmonious and ergonomic surface onto which pots can be placed and moved safely and securely. In addition to providing a highly professional look, these ensure excellent performance, which remains unaffected over time.
